Crochet Star Hanging Ornament

Hanging Ornament · 4 part(s) + 3 finishing operation(s) · hooks 3.5 mm, 1.0 mm

Concept illustration — not a render of this pattern. It is not generated from these stitch counts and may show colours, parts or finishes the instructions do not produce.

A stuffed star hanging ornament made from two 5-pointed stars sewn together, decorated with flowers, cherries and blush, with eyes and a smile and a chain hanging loop.

Provenance

Transcribed by hand from the user's supplied pattern text (Materials, Abbreviations, Star Base, Star Points, Sewing, Flowers, Cherry, Blush, Assembly, Hanging). No part of the instruction wording is model output. Gaps in the source are flagged as open questions, not filled in.

Materials

Yarn: Acrylic yarn (3-ply and 2-ply)
Hooks: 3.5 mm, 1.0 mm
Colours: as desired
Notions: scissors, glue, yarn needle, fiber filling

Hook assignment: Star: 3.5 mm; Flower: 1.0 mm; Cherry: 1.0 mm; Blush: 1.0 mm

Abbreviations

MR = Magic ring
sl knot = Slip knot
sc = Single crochet
inc = Increase
sk = Skip
ch = Chain
sl st = Slip stitch
dc = Double crochet

Gauge & finished dimensions

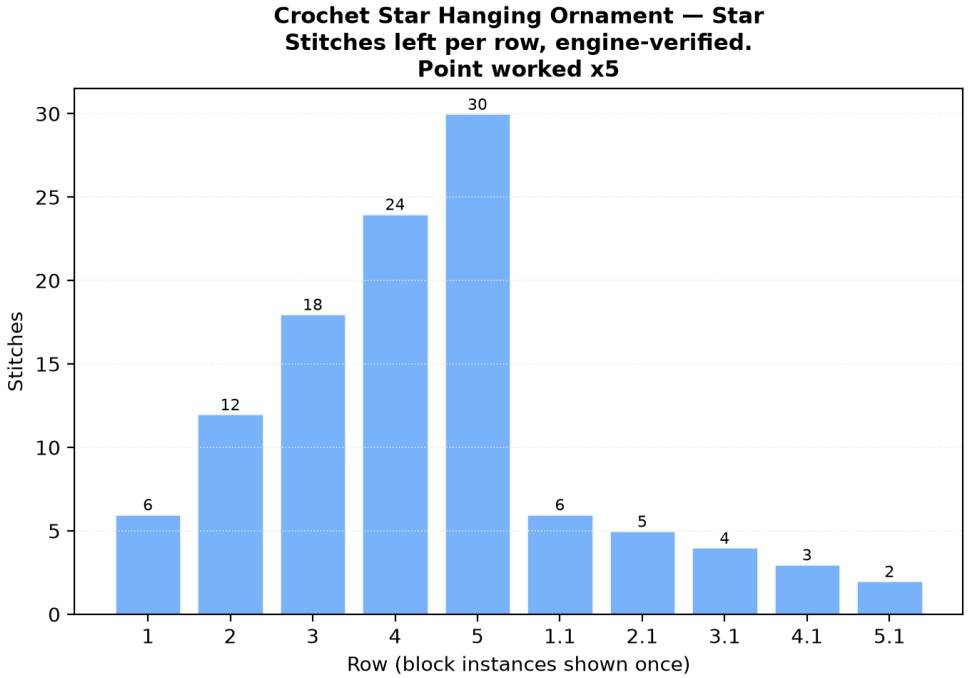

No gauge was supplied for this item, so **no finished size is claimed**. A stitch gauge is the only thing that converts stitch counts into centimetres, and inventing one would fabricate the size along with it.

To get exact dimensions: work a 10 × 10 cm swatch in sc on the hook listed above, count its stitches and rows, and re-run the pattern with that gauge.

Open questions — gaps in the source

- puffy stitch (loop count and height not given in the source) -- used by the source but never defined
- Open question: the materials list does not include the eyes used here. The source says 'glue the eyes' but never lists them or their type -- choose them, or embroider the eyes in black yarn.
- Open question: the source says only 'insert it onto the top'. To bear weight without tearing, sew the loop into the top seam with two stitches on the inside and bury the tail -- that fixing is a recommendation, not the source's instruction.

Stitch chart

Counts per row, engine-verified. A count profile, not a stitch chart: it shows how many stitches a row leaves, not where they sit.

Pattern: parts

Star (make 2) — hook 3.5 mm

■ Make another star following the same pattern.

Row 1 — Base row 1: Make a MR. Make 6 sc into the MR (no sl st). **[6 sts]** OK

engine check: Magic ring, 6 sc. → 6 sts (declared 6)

Row 2 — Base row 2: Make an inc in every single stitch (12 sc). **[12 sts]** OK

engine check: Work (6v) x1. → 12 sts (declared 12)

Row 3 — Base row 3: Repeat (1 sc, 1 inc) 6 times (18 sc). **[18 sts]** OK

engine check: Work (x, v) x6. → 18 sts (declared 18)

Row 4 — Base row 4: Repeat (2 sc, 1 inc) 6 times (24 sc). **[24 sts]** OK

engine check: Work (2x, v) x6. → 24 sts (declared 24)

Row 5 — Base row 5: Repeat (3 sc, 1 inc) 6 times (30 sc). **[30 sts]** OK

engine check: Work (3x, v) x6. → 30 sts (declared 30)

Point 1 -- base sts 1-6

Row 1: 6 sc, ch 1, turn your work. **[6 sts]** OK

engine check: Join yarn and work 6 sc along the base edge. ch 1, turn. → 6 sts (declared 6)

Row 2: Sk the first stitch and make 5 sc, ch 1, turn your work. **[5 sts]** OK

engine check: Work sk 1, (5x) x1. ch 1, turn. → 5 sts (declared 5)

Row 3: Sk the first stitch and make 4 sc, ch 1, turn your work. **[4 sts]** OK

engine check: Work sk 1, (4x) x1. ch 1, turn. → 4 sts (declared 4)

Row 4: Sk the first stitch and make 3 sc, ch 1, turn your work. **[3 sts]** OK

engine check: Work sk 1, (3x) x1. ch 1, turn. → 3 sts (declared 3)

Row 5: Sk the first stitch and make 2 sc, ch 1, fasten off. **[2 sts]** OK

engine check: Work sk 1, (2x) x1. ch 1, fasten off. → 2 sts (declared 2)

Point 2 -- base sts 7-12 — join the yarn to these stitches

Row 1: 6 sc, ch 1, turn your work. **[6 sts]** OK

engine check: Join yarn and work 6 sc along the base edge. ch 1, turn. → 6 sts (declared 6)

Row 2: Sk the first stitch and make 5 sc, ch 1, turn your work. **[5 sts]** OK

engine check: Work sk 1, (5x) x1. ch 1, turn. → 5 sts (declared 5)

Row 3: Sk the first stitch and make 4 sc, ch 1, turn your work. **[4 sts]** OK

engine check: Work sk 1, (4x) x1. ch 1, turn. → 4 sts (declared 4)

Row 4: Sk the first stitch and make 3 sc, ch 1, turn your work. **[3 sts]** OK

engine check: Work sk 1, (3x) x1. ch 1, turn. → 3 sts (declared 3)

Row 5: Sk the first stitch and make 2 sc, ch 1, fasten off. **[2 sts]** OK

engine check: Work sk 1, (2x) x1. ch 1, fasten off. → 2 sts (declared 2)

Point 3 -- base sts 13-18 — join the yarn to these stitches

Row 1: 6 sc, ch 1, turn your work. **[6 sts]** OK

engine check: Join yarn and work 6 sc along the base edge. ch 1, turn. → 6 sts (declared 6)

Row 2: Sk the first stitch and make 5 sc, ch 1, turn your work. **[5 sts]** OK

engine check: Work sk 1, (5x) x1. ch 1, turn. → 5 sts (declared 5)

Row 3: Sk the first stitch and make 4 sc, ch 1, turn your work. **[4 sts]** OK

engine check: Work sk 1, (4x) x1. ch 1, turn. → 4 sts (declared 4)

Row 4: Sk the first stitch and make 3 sc, ch 1, turn your work. **[3 sts]** OK

engine check: Work sk 1, (3x) x1. ch 1, turn. → 3 sts (declared 3)

Row 5: Sk the first stitch and make 2 sc, ch 1, fasten off. **[2 sts]** OK

engine check: Work sk 1, (2x) x1. ch 1, fasten off. → 2 sts (declared 2)

Point 4 -- base sts 19-24 — join the yarn to these stitches

Row 1: 6 sc, ch 1, turn your work. **[6 sts]** OK

engine check: Join yarn and work 6 sc along the base edge. ch 1, turn. → 6 sts (declared 6)

Row 2: Sk the first stitch and make 5 sc, ch 1, turn your work. **[5 sts]** OK

engine check: Work sk 1, (5x) x1. ch 1, turn. → 5 sts (declared 5)

Row 3: Sk the first stitch and make 4 sc, ch 1, turn your work. **[4 sts]** OK

engine check: Work sk 1, (4x) x1. ch 1, turn. → 4 sts (declared 4)

Row 4: Sk the first stitch and make 3 sc, ch 1, turn your work. **[3 sts]** OK

engine check: Work sk 1, (3x) x1. ch 1, turn. → 3 sts (declared 3)

Row 5: Sk the first stitch and make 2 sc, ch 1, fasten off. **[2 sts]** OK

engine check: Work sk 1, (2x) x1. ch 1, fasten off. → 2 sts (declared 2)

Point 5 -- base sts 25-30 — join the yarn to these stitches

Row 1: 6 sc, ch 1, turn your work. **[6 sts]** OK

engine check: Join yarn and work 6 sc along the base edge. ch 1, turn. → 6 sts (declared 6)

Row 2: Sk the first stitch and make 5 sc, ch 1, turn your work. **[5 sts]** OK

engine check: Work sk 1, (5x) x1. ch 1, turn. → 5 sts (declared 5)

Row 3: Sk the first stitch and make 4 sc, ch 1, turn your work. **[4 sts]** OK

engine check: Work sk 1, (4x) x1. ch 1, turn. → 4 sts (declared 4)

Row 4: Sk the first stitch and make 3 sc, ch 1, turn your work. **[3 sts]** OK

engine check: Work sk 1, (3x) x1. ch 1, turn. → 3 sts (declared 3)

Row 5: Sk the first stitch and make 2 sc, ch 1, fasten off. **[2 sts]** OK

engine check: Work sk 1, (2x) x1. ch 1, fasten off. → 2 sts (declared 2)

Flower (make 2) — hook 1.0 mm

- Make another flower following the same pattern.

- Make a MR and ch 2.
- Petal 1: make 1 dc into the MR, ch 2, sl st into the MR.
- Repeat the petal 4 more times in the same ring (5 petals in total).
- Close the MR and cut the yarn, leaving a tail for sewing on.

Cherry (make 3) — hook 1.0 mm

- Make 2 more cherries following the same pattern.

- Make a sl knot and ch 2.
- Sk the first ch and make a puffy stitch into the second ch.
- Ch 1 and tie the threads tightly.

Blush (make 2) — hook 1.0 mm

- Make 1 more blush.

Row 1: Make a MR. Make 5 sc into the MR. Close the MR and sl st. **[5 sts]** OK

engine check: Magic ring, 5 sc. sl st to join. → 5 sts (declared 5)

Pattern: finishing operations

Sewing

- This seam is worked entirely with yarn and a needle. No glue is used anywhere in it; glue appears in the materials only for the surface decoration.

- Place the two stars together with wrong sides facing out, lining up the flat bases and all 5 points tip to tip.
- Thread the yarn needle with about 70 cm of the same yarn.
- Bring the needle up between the layers at the base of one point so the starting knot is hidden inside.

- Sew around with an invisible slip-stitch seam: pick up one front loop on the star in front and one back loop on the star behind, pull the yarn through, and repeat one seam stitch per crochet stitch -- 30 seam stitches across the base.
- At each of the 5 tips take two stitches into the same space so the point turns sharp instead of rounding off.
- Stop with about 4 cm of the last point left open. Fasten off temporarily.
- Push small pieces of fiber filling through the opening, working them into each point with the back of a hook so the tips fill without bulging the seam.
- Close the opening with the same invisible seam, matching stitch for stitch. Pull the yarn tight, pass the needle through the star and out the other side, and cut so the tail disappears inside.

Assembly

■ Open question: the materials list does not include the eyes used here. The source says 'glue the eyes' but never lists them or their type -- choose them, or embroider the eyes in black yarn.

- Sew or glue the flowers, cherries and blush in place.
- Attach the eyes in the middle.
- Cut a small piece of black or brown yarn and fix it in the middle to look like a smile.

Hanging

■ Open question: the source says only 'insert it onto the top'. To bear weight without tearing, sew the loop into the top seam with two stitches on the inside and bury the tail -- that fixing is a recommendation, not the source's instruction.

- Make a sl knot and ch 20, then cut the yarn.
- Insert it onto the top of the star to make a hanging.

Verification

Arithmetic: PASS — 0 stitch-math error(s) across 31 audited rows. Every count was re-derived from the operations and compared with the stated total.
Multiplicity: Star / Point x5 — 5 × 6 base sts = 30, foundation made 30. OK
Coverage: 390 stitches counted across Star x2, Blush x2. **Not stitch-modelled (50% of parts):** Flower x2 (described, no counts), Cherry x3 (described, no counts) — described steps the arithmetic above does not prove.
Finishing operations described in words, not counted: Sewing, Assembly, Hanging.
Fidelity to source: not machine-checkable — see Provenance and the open questions. A green arithmetic verdict does not certify that this is the pattern you asked for.

Component	Row	Inst	Base sts	Start	Consumed	Created	Declared	Status
Star	1	-	-	0	6	6	6	OK
